DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Dan Tanner Registration No. 54,734 on April 10, 2007.

The application has been amended as follows:

Claims **1 - 5, 12 - 16** have been canceled without prejudice.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Claims **6 - 11** are allowed.

The current prior art discloses a system that is capable of signing a workflow with a digital signature in order to enable authorization for a workflow.

However, the current prior art does not specifically disclose, the designation of two

cryptographic keys. The first cryptographic key is selected to indicate by its usage in the generation of a digital signature and the signing of a particular workflow such that the signed workflow is within a particular domain. The second cryptographic key is selected to indicate by its usage in the generation of a digital signature and the signing of a particular workflow such that the signed workflow is outside of a particular domain.

So as indicated by the above statements, Applicant's arguments have been considered persuasive, in light of the set of claims with limitations as well as the enabling portions of the specification. The dependent claims further limit the independent claims and are considered allowable on the same basis as the independent claims as well as for the further limitations set forth.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
